

FOR IMMEDIATE RELEASE

German Update

We are delighted to announce the forthcoming launch of a major new update for RailWorks. The 'German Update' is the first of three major updates happening over the spring/summer season and, as you have probably guessed, it chiefly adds to the existing German game features and assets as well as delivering a range of universal improvements to the simulator.

The update is automatic and is available from Wednesday night for all RailWorks users to enjoy.

Important information

Save Files are now binary so you will not be able to load old save files

New Stock

- BR 143 red
- BR 151 red Railon
- FAS 126 red DB-Cargo
- FALNS red DB-Cargo
- Knickesselwagen grey VTG
- Passenger wagon red 1./2.Class
- Passenger wagon red 2. Class
- Passenger wagon red (front)
- BR52 steam loco
- Gbs254 brown (for BR52)
- Cooler Lbbhs (for BR52)
- Omm52 brown in 2 versions (for BR52)

Route improvements

- Upgraded models of stations and buildings on the Hagen – Siegen route

Improved Signal Functionality

- HP, KL and KS signalling systems
Schedules definable to the second for departure and arrival.

Exceeding the max. signal, line or locomotive max. speed of more than 5 km/h will trigger an emergency braking.

- When passing a red signal, the scenario will end.
Simplified PZB functions with confirmation at pre-signals or announced low speed sectors.
H/V system with double or triple info signals.
- HL system of the DR with multiple info signals through combination of main and pre signals.
- KS system for modern routes with main, pre and multiple sector signals.
- Source Code for scripting and signalling of the German signalling will be made available to the end user in order to allow adding functionality to the German signalling system.

Other improvements and fixes

ScenarioProperties now have BlueprintSetPreLoad

Increased accuracy for Speed Limit reporting

Broken Consists now detected on scenario load

Latitude -32 and -38 fixed

Dumps now include version number

Asset Editor won't go fullscreen

Blueprint Editor open bug fix

Turntables and Traversers memory leakage fixed
