Interview opportunities:

RailSimulator.com is a new British publisher run by [Paul Jackson](#) (former ELSPA DG, EA Northern Europe VP and now CEO RailSimulator.com) **Interview opportunities available**

"I'm delighted to be publishing again," said CEO Paul Jackson. "RailSimulator.com is a very exciting proposition and I am confident that we will be the world leader in this market.

Microsoft's decision to cancel the development of Train Simulator 2 product was a blow for many train enthusiasts. However RailWorks represents a significant advance from previous simulators and we are confident that both existing Rail Simulator and Train Simulator users will not be disappointed."

About RailWorks

Drive 13 different locomotives along 8 different routes in the UK, North America and Europe.

Download new routes, locomotives and rolling stock or create your own design and share it with friends.

Stunningly accurate graphics.

- Each of the 8 routes is beautifully modelled with characteristic signalling and signage
- Watch the action from a number of spectacular pre-set views, including cab, passenger, trackside and bird's eye
- Includes over 50 scenarios to test your driving ability
- Simple, user-friendly interface allows instant access to train experience
- Advanced mode creates a challengingly realistic engine driving experience
- Five accurate real-world routes: Bath-Templecombe, Oxford-Paddington, York-Newcastle, Hagen-Siegen and Cajon Pass

- Three fictional routes: a large UK goods yard, a route based around Denver, Colorado USA and a route set in the alpine region of northern Europe

Powerful user tools to create your own content.

- The World Editor enables users to easily create new routes or modify existing ones
- Routes can be built from scratch, containing your choice of terrain, track and scenery objects
- Ability to share user-created content
- Additional content already available for download, including locomotives, rolling stock, scenarios and routes*
